CHEESE NOTES

BERRY'S CREEK MOSSVALE BLUE

Cow, Farm house Blue
Gippsland, Victoria

This small naturally rinded blue cheese is hand made at Kina Dairy at Poowong in Gippsland by cheese maker Barry Charlton and his partner Cheryl Hulls using Jersey cows' milk.

After two months of ripening the buttery yellow texture develops light shades of green blue mould and is finished with a mild and creamy salty blue flavour.

Sustained quality in cheese production is the hallmark of cheese maker, Barry Charlton. This is proudly echoed in their extensive tally of awards since 2007, when two driven cheese-lovers embarked on their vision to establish an artisan cheese company. This vision was enhanced by their connection with local Mossvale Park and their proud family heritage in South Gippsland, Victoria.

Coupled with these factors are Barry's 30 years of experience in cheese making and his unique brand of creativity. The overall result allows Barry to intuitively read the conditions associated with handling a natural product and so develop distinctive styles of cheese.
